

Global Health Policy

Winter Semester 2024/2025

When: Monday, 16:00-18:00 CET, starting 21st October 2024
Location: S 52 (RW II, EG)

Course Objectives

Students acquire a basic understanding of the political institutions and actors and processes that shape global health outcomes. Based on this knowledge, they are able to analyze current developments in global health policy and health systems world-wide as well as to assess performance and reform proposals.
